

2022新疆高二下学期人教版高中英语月考试卷

1.

Do you have difficulty growing grass because of salty air or soil conditions? Do you require a grass that will stand up to heavy traffic? Do you need a grass that will survive up to one degree below zero? Do you want to reduce the number of times you cut your grass each month? If you answered yes to one or more of these questions, and the area to be planted receives at least 2-3 hours of direct sunlight a day, Amazoy zoysia is right for you.

Zoysia is a particularly tough grass that grows well in a wide variety of conditions. It was brought to the United States by Frank Meyer, a famous plant explorer who discovered zoysia along the Yalu River in 1906. There's another important man we have to mention here. Herbert Friedberg, founder of Zoysia Farm Nurseries, was the first businessman to recognize zoysia's potential to improve America's lawns (草坪). Today, Zoysia Farm Nurseries is the oldest, continuously operating company to sell zoysia grass plugs (草皮) by mail.

Zoysia is the perfect choice for hard-to-cover spots and hilly areas. Zoysia lawns only need to be cut once or twice a season. Watering is rarely, if ever, needed — even in summer! Besides, you'll never have to use poisonous pesticides (杀虫剂) and weed killers again! Zoysia lawns are safer for family and pets! When ordinary lawns brown up in summer heat and drought, your zoysia lawn stays green and beautiful. Zoysia grows well in extreme heat (49°C), yet it won't winter-kill to one degree below zero.

The more Amazoy zoysia plugs you order, the more you save! We will replace any plug that fails to grow in 45 days absolutely free!
