It was in 1965 when I was 6 years old that my family moved to Elmont. It was a wonderful place to grow up. There were lots of kids, great schools and we had a big yard. Having grown up a city kid, my father, Nicholas Denaro, believed that grass was not just to look at, but that children were meant to play on it. We played games and badminton there. A white fence separated our backyard from a small wood. My friends and I enjoyed jumping the fence and climbing trees.

My father had the most amazing hand. He could fix anything. He gave those amazing hands to his son, my younger brother, Frank, who also became handy around the house. But my father saved his green fingers for me. He grew flowers, tomatoes, strawberries and figs and he shared his love of gardening with me.

Fourteen years ago, my husband and I went to a local nursery and bought a fig tree for Dad for Father's Day. My mother, Bridget Denaro, called it the best gift I could have given him. He planted it exactly in the middle of the front yard.

He loved that tree and enjoyed delicious figs every year, except just after Sandy hit in 2012. He was so disappointed when cold weather just after the superstorm froze all the remaining figs.

In 2015, my father died of lung cancer at 97. We sold our family home of 61 years last year. We left behind Dad's tree, full of figs waiting to ripen. We briefly considered taking it with us, but decided that his Father's Day fig tree belonged in Elmont. The new owners generously allowed me to take some branches so that I could have a precious reminder of my much-loved father and the Elmont home.
