Word版含答案

1. _____

Living with other students can be a wonderful experience. Here are a few tips for student accommodations that can help ensure a great experience and build lifelong friendships: Screen your roommates carefully if you are given a choice. Combining the living spaces of several students into one location can be an exciting and rewarding experience for the outgoing students. If you are on the shy side, or prefer a quiet group to study with, pick quieter roommates.

Divide the bills evenly. Some students are far less responsible than their roommates and tend to let their part of the finance slide. Resentment(不满)is quick to build when everyone has to pay the bill for a fellow student who can't seem to pay his / her share of the money.

Carry your part of the load. Everyone has to clean the bathroom and the kitchen sometime. Don't avoid your part of responsibility. Student accommodations can get messy and it involves everyone to keep them tidy and healthy.

Think about someone else before you think about yourself. Put your roommates interests above your own. Life will be far enjoyable when everyone is concerned about the feelings property and studies of each other.

Be open and honest. Hostilities(敌意)and frustrations may cause problems that can't be fixed. Everyone brings different standards and expectations to group living and it's in everyone's best interest to put them into the open. Disagreements can be managed more amiably (和蔼可亲地)when you are willing to be both open and listen to others.
