Chambanamoms Presents

Girl's Night Out: Foot Golf!

Grab some friends and join us on Saturday, June 4, for a fun night out at Lake of the Woods Golf Course in Mahomet, thanks to our friends at the Champaign County Forest Preserve District. There will be giveaways, some adult drinks and food, as well as a great night out playing Foot Golf. Yes, we said Foot Golf. You don't need to have a bag full of club(球杆) or fancy spike(钉鞋)--- just bring yourself (and athletic shoes, please).

If you can kick a soccer ball, you can play Foot Golf. If you can laugh and have fun, you can also play Foot Golf.

So what is Foot Golf? Foot Golf is what happens when you combine golf and soccer. Players kick off from a tee box (开球处) and attempt to get their soccer ball into a 21-inch diameter(直径) cup using the fewest number of kicks. Foot Golf can be played by children and adults. It is a trend sweeping golf courses across the country, and we are lucky to have it right here in Champaign County.

This event is FREE. To manage the number of people we have on the course, we are asking our friends to register (注册). Here is a quick and easy form to fill out: <http://www.chambanamoms.com/girlsnightoutsvp/>

We look forward to seeing you on Saturday, June 4, at 7 p.m. Bring your girlfriends —and your sense of humor!

IF YOU DRIVE: Lake of the Woods Golf Course is a quick drive west from Champaign-Urbana on Interstate 74. Get off at Lake of the Woods exit, Exit No. 174. Head north for 1/2 mile until the first stop sign. Take a left at the stop sign and travel for one mile. This road will take you directly to the golf course.

Japanese fans who watched their national team be defeated by the Ivory Coast on Saturday showed it is possible to lose graciously (优雅地), when they stayed behind after the match to help clean up.

Despite seeing Japan's Blue Samurais lose 2-1 against the Ivory Coast's national team at the Arena Pernambuco in Recife, the Japanese audience armed with plastic bags searched their side of the stadium and gathered up dropped litter. While gathering waste after a sporting event is customary in Japan, the audience's actions came as a shock to football fans from other countries.

This isn't the first time the Japanese have taken trash outside the stadium. The 1998 FIFA World Cup held in France was the first ever World Cup that Japan had qualified for. After their first group game against Argentina, the Japanese fans gave the world a lesson in politeness and respect by actually cleaning the football stadium seats. They picked up all the trash around them whether it was theirs or not. They then walked out and threw the trash in the garbage cans before leaving.

The all-around cleanliness of Japanese large cities comes as a culture shock to people coming from other big cities in the world. This tidiness is not due to millions of dollars spent on street cleaners and "Let's clean-up our city" campaigns. It's not due to effective public works or community service. It's due to one simple thing: They don't throw their rubbish on the floor. This unique and rare concept allows for both huge cities and the countryside to stay neat and tidy.
