Are you planning a new job or new career? (33) \_\_\_\_\_ the ongoing economic slowdown means most industries still face cutbacks (裁员), there is one field that's likely to grow steadily in the future: Health Care Field. Job opportunities in health care are on the rise and expected to increase 34% through 2018. This is due to two factors: Firstly, the American population (34) \_\_\_\_\_ (age) rapidly at present. A much (35) \_\_\_\_\_ (large) population of the elderly means a huge increase in demand for medical services and the people (36) \_\_\_\_\_ provide them.

The second reason is related to technology. Our health care is getting more and more sophisticated (尖端的). And, that means highly skilled people (37) \_\_\_\_\_ (need) by the public to deliver the service.

Put these things together (38) \_\_\_\_\_ you may get higher salaries than others. We all know that doctors make a lot of money. But doctors (39) \_\_\_\_\_ endure over 10 years of schooling and hard work.

Fortunately, you don't need to become a doctor to settle into a well-paying job. There are many opportunities available, and one of the best ways to get into the field is (40) \_\_\_\_\_ a medical assistant.
