

1.

Spain Environmental Project

Full Description

Greenheart Travel? Casita Verde (Green House) is an incredible eco-center situated in a beautiful valley near the village of San Jose, Ibiza. This great Mediterranean island is renowned for its rich culture and incredible scenery. Casita Verde is considered an experiential eco-education center, and showcases the best practices for sustainable living and alternative energies. The center includes almost 14 acres of working farm land created to demonstrate ecological development powered by wind and sun energy.

How You Will Make a Difference:

- Maintain and improve the farm facilities
- Install an alternative energy system
- Promote environmental awareness among visitors
- Cook delicious, organic meals for visitors
- Learn farming that emphasizes the use of renewable natural resources and the enrichment of local ecosystem

Assist with Sunday community visit/meals

Dates: Flexible dates available

Duration: 1 to 12 weeks

Cost Details: fee includes: housing, food, medical insurance, in-country staff support, pre-departure orientation, in-country orientation, 24-hour emergency contact

A Great Opportunity for: Teens/Professionals

Skills Needed/Experience

Participants should have an active interest in environmental studies/ecology, and strong desire to contribute to the international effort to protect the environment. Those who are interested in it must have extensive hands-on conservation experience and be willing to live rustically (淳朴地) in an alternative community. Some knowledge of Spanish is helpful but not required.
