Many people like to travel by plane because it's fast, but I don't like it because the airport (机场) is usually far from the city. You have to get there early and wait for hours for the plane to take off and it is often late. You can't open the window. You can't choose the food. Planes are fast, but they still take hours to get out of the airport and into the city.

I like travelling by train. I think trains are safe. Railway stations (火车站) are usually in cities. When you are late for a train, you can catch another one. You can walk around in the train. You can see many interesting things on your way. But it takes a little more time.

I also like cars. You can start your trip when you want to, and you don't need to get to a railway station or a bus stop. Also you can carry many things with you in a car. But sometimes there are too many cars on the road,
